EDUCATION

Swami Keshvanand Institute of Technology

Jaipur, India

B.Tech in Computer Science and Engineering(Data Science) — CGPA: 9.62/10.0

MPS International

Jaipur, India

CBSE — Class 10th: 95.4% — Class 12th: 91.8%

TECHNICAL SKILLS

Programming: C++, JavaScript, Python, SQL

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Authentication, JWT

Databases: MySQL, MongoDB

AI/ML: Machine Learning, Deep Learning, Generative AI, LangChain, TensorFlow, Scikit-learn, Pandas, NumPy

Tools: Git, GitHub, Postman, Jupyter Notebook

WORK EXPERIENCE

Cynbit Technologies — Data Science Intern

06/2025 – 07/2025

- Applied Python, Machine Learning, and Deep Learning in AI workflows.
- Worked with Transformers, NLP pipelines, and LLMs for text-based AI tasks.
- Built RAG applications using LangChain, vector databases, and prompt engineering.

Kistechno Software — Web Development Intern

07/2024

- Implemented dynamic web functionality using JavaScript and PHP.
- Built and tested interactive website features to enhance performance and usability.

PROJECTS

CodeHub Arena — React, TypeScript, Express, Node.js, MongoDB, JWT

[🔗](#) [🔗](#)

- Built a MERN & TypeScript dashboard aggregating real-time stats from 3+ coding platforms via REST APIs.
- Reduced API overhead by 70% by implementing a 24h MongoDB caching layer for platform statistics.
- Developed automated Node.js workers to sync external contest and hackathon data with 99% accuracy.

Employix — Next.js, Node.js, Express, MongoDB, spaCy, Socket.io

[🔗](#) [🔗](#)

- Architected a job platform using Next.js 16, Redux Toolkit, and MongoDB, featuring advanced job filtering and application tracking.
- Engineered a RESTful API with JWT authentication and decoupled microservices to ensure secure and efficient system performance.
- Developed a live chat system with Socket.io and Node.js, integrating Cloudinary for persistent file sharing and media previews.
- Built a Python/Flask microservice using spaCy NLP to automate skill extraction and job-matching from PDF resumes.

HACKATHONS & LEADERSHIP

Smart India Hackathon

09/2025

- Presented “KridaSetu”, an AI-based prototype for identifying talented rural athletes.
- Selected in Smart India Hackathon (SIH) 2025 Internal Round for an innovative sports talent scouting solution.

Amazon ML Challenge

10/2025

- Built a multimodal price prediction model using structured data, product descriptions, and product images.
- Extracted visual (CNN) and textual embeddings, training a LightGBM model achieving 60 SMAPE on validation.
